The result of the parentage evaluation on the litter listed overleaf will be submitted to the breeder and a copy forwarded to the Finnish Kennel Club unless expressly forbidden before the sample collection by the breeder or the person(s) commissioning this evaluation. The laboratory and the Finnish Kennel Club may publish the DNA profiles and the parentage evaluation results in a public internet database. They may also store the test results for further parentage evaluation or DNA profiling.

The laboratory reserves the right to store and use the samples collected for this test for further research into improving canine DNA diagnostics; no such test results on individual dogs will be published without the owner's consent.

The breeder mentioned overleaf certifies that he/she is the breeder of the litter and agrees to the conditions listed above.
