

GUIDELINES FOR JUDGES AT DOG SHOWS IN FINLAND

These guidelines for judges officiating at dog shows licensed and approved by the Finnish Kennel Club (FKC) are based on the FKC show rules and regulations.

The judging system in Finland differs substantially from the British and the U.S. systems. The main differences are:

Each dog is given a written critique of approximately 20–50 words, which the judge dictates to the ring steward in his/her own language. The critique should include the judge's overall assessment of the dog and its quality, and it should cover the main merits and faults of the dog. The critique for a non-excellent or non-very good dog should indicate the reason for the grading. A copy of the critique is given to each exhibitor at the conclusion of the breed judging. Critiques are also published in breed club magazines or yearbooks.

In every class, each dog is first judged individually against the **FCI breed standard** and graded according to its quality.

The FKC defines the various grades as follows:

EXCELLENT may only be awarded to a dog which comes very close to the ideal standard of the breed, is presented in excellent condition, displays a harmonious, well-balanced temperament, and is of high class and has excellent posture. Its superior characteristics in respect of its breed permit that minor imperfections can be ignored; it must however have the typical features of its sex.

VERY GOOD may only be awarded to a dog which possesses the typical features of its breed and which has well-balanced proportions and is in correct condition. A few minor faults may be tolerated, however none of a morphological nature. This award can only be granted to a dog that shows class.

GOOD is to be awarded to a dog which possesses the main features of its breed however showing faults, subject to that these are not concealed.

SUFFICIENT must be awarded to a dog which corresponds adequately to its breed without possessing the generally accepted characteristics, or whose physical condition leaves something to be desired.

DISQUALIFIED must be awarded to a dog that

- does not correspond to the type required by the standard;
- displays behaviour clearly not in line with its standard or is aggressive;
- has testicular abnormalities; If a male dog is castrated because of medical reasons (illness or injury), there must be an official veterinary certificate accepted by the Finnish Kennel Club. The certificate must prove that this male has had normal testicles at the age of minimum 6 months. In this case the dog is judged normally.
- has dental flaw(s) or a jaw abnormality;
- shows a colour and/or coat imperfection or clearly shows signs of albinism;
- does not appear healthy;
- shows some fault(s) listed in the breed standard as eliminating faults.

Dogs that cannot be awarded any one of the qualifications mentioned above should be released from the ring with:

CANNOT BE JUDGED – This rating is given

- to a dog whose gait and movement cannot be assessed (dog does not move, constantly jumps up and down around its handler or tries to get out of the ring);
- to a dog that constantly avoids the judge so that it cannot be examined to inspect its bite, teeth, anatomy, construction, tail or testicles;
- to a dog that shows traces of operations or treatments that appear like attempts of deception;
- if the judge has reason to suspect operations intended to correct some fault in the dog (e.g. eyelids, ears, tail).

The written critique must clearly state the reason why the dog got rated CANNOT BE JUDGED

Please note:

- It is forbidden to use any substances that affect the colour, form or structure of the coat, nose and skin. If you suspect that such substances have been used, please contact the show organizer.
- Docked and/or cropped dogs are not allowed to participate in dog shows in Finland if they are born on January 1st 2001 or later. Dogs older than that can be shown. In these breeds it should not have any effect on the judging whether the dog is cropped / docked or not.
- Dogs coming too late for judging can only have a written critique and grading. The class is "closed" when the judge has decided the placing in each competition class.
- Trainee judges are usually qualified judges who are studying in order to become licensed to a new breed. The judge is expected to teach them while judging by discussing the dogs with them. The judge is not expected to examine the trainees, and she/he is not allowed to ask for the trainees' opinion of the presented dogs until after the quality grade has been given. Trainees do not write any critiques. The trainee must never influence the judge's decisions, measure dogs, check testicles or bites.
