

Request for DNA Parentage Evaluation

Use this form to request a parentage evaluation based on DNA samples for the sire and the dam and their offspring.
If the sire(s) and the dam already have DNA profiles, please indicate them and the name of the laboratory that has provided the DNA profiles.

Puppy 6 <input type="checkbox"/> male <input type="checkbox"/> female				
Puppy 7 <input type="checkbox"/> male <input type="checkbox"/> female				
Puppy 8 <input type="checkbox"/> male <input type="checkbox"/> female				

The result of the parentage evaluation on the litter listed overleaf will be submitted to the breeder and a copy forwarded to the Finnish Kennel Club. The DNA profiles and the parentage evaluation results may be recorded and published in a public internet database by all Nordic Kennel Clubs and by the laboratory. They may also store the test results for further parentage evaluation or DNA profiling.

The laboratory reserves the right to store and use the samples collected for this test for further research into improving canine DNA diagnostics; no such test results on individual dogs will be published without the owner's consent.

The breeder mentioned overleaf certifies that he/she is the breeder of the litter and agrees to the conditions listed above.

Date	Signature
Place	Name in block letters

The sample collector certifies that the samples have been taken from the dogs listed overleaf and the ID number (microchip or tattoo) on each dog has been verified.
