

Request for DNA Profiling

Use this form to request a DNA profiling of an individual dog. Such identification will enable the parentage evaluation when needed. If the sire and the dam already have DNA profiles, please indicate them and the name of the laboratory that has provided the DNA profiles.

Owner's name	Phone
--------------	-------

The result will be sent

Name

Dog

Sample collection date	Date of birth	<input type="checkbox"/> Male	<input type="checkbox"/> Female
Breed			
Dog's name			
FKC Reg.number	ID-number (microchip or tattoo)		
Sire's name			
FKC Reg.number	ID-number (microchip or tattoo)		
Dam's name			
FKC Reg.number	ID-number (microchip or tattoo)		

The result of the DNA profiling will be submitted to the owner and a copy forwarded to the Finnish Kennel Club. The DNA profile may be recorded and published in a public internet database by all Nordic Kennel Clubs and by the laboratory. They may also store the test results for further parentage evaluation or DNA profiling.

The laboratory reserves the right to store and use the samples collected for this test for further research into improving canine DNA diagnostics; no such test results on individual dogs will be published without the owner's consent.

The owner mentioned above certifies that he/she is the owner of the dog and agrees to the conditions listed above.

Date	Signature
Place	Name in block letters

The sample collector certifies that the sample has been taken from the dog mentioned above and the ID number (microchip or tattoo) on the dog has been verified.
